

6516205362.txt

Hello,

I am an new subscriber to XM Satellite Radio. I enjoy it thoroughly, especially the selection and the reception! I rely on the traffic both in the morning and evening to help me navigate my way through and/or around the terrible traffic in the East Bay.

I sincerely hope that the FCC will not impede the excellent programming of XM Satellite Radio and will not keep them from continuing their traffic and weather coverage.

Thank you,

Sharon Mark
